### **The PACE Group of Thomasville 2015 Farm to Table Dinner Event generates community and excitement for Historic Downtown project**

On July 26, 2015, The PACE Group of Thomasville hosted their 3rd Annual Farm to Table & Dinner Auction to celebrate local farms and community. This year's event brought additional excitement because of the recent property donations (6 Main Street and 9 Salem Street) from Bob Callicutt of Callicutt Realty, the completion of two chairs from the Chair City Art campaign and the launching of PACE's new website ([pacethomasville.org](http://pacethomasville.org)).

This year's Farm to Table event experienced record attendance and the PACE Group raised a net of \$8,774.78. The PACE Group made considerable effort to feature local vendors. Catering was provided by Tricia's Catering and many of the produce served were supplied by the vendors from Thomasville Farmers Market: Sink Family Farm, Silver Valley Farmers, Conrad Farm, Peachtree Garden, Cridlebaugh Farm, and Miller Farm. Beautiful table bouquets were supplied by Flower House Farm.

Special thanks is extended to 12 West Main E for hosting the event and to the following sponsors:

Novant Health, NewBridge Bank, Blazer Investment Management Group, and City Councilman Neil Grimes

PACE's fundraising efforts are an on-going endeavor. Please join yoga instructor Jacqueline Brooke every Saturday at 9:30 am for Yoga in the Park, free. Donations accepted. Proceeds will go towards PACE's ongoing community building efforts.

For citizens interested in supporting PACE's efforts including the Historic Downtown Building Restoration Project, you can contact Doug Elliott at (336) 472-1222 and [doug@tvillelaw.com](mailto:doug@tvillelaw.com).

Donations can be sent to the following:

The Pace Group, Inc

P.O. Box 1485

Thomasville, NC 27361

The PACE Group, Inc. (People Achieving Community Enhancement) of Thomasville is a citizen-led organization formed in April 1991 to pursue solutions to revitalize the historic downtown district of Thomasville. PACE has no paid positions and is entirely composed of dedicated volunteers. After the release of the 1999 comprehensive analysis report developed by the North Carolina Urban Design Assistance Team (UDAT), which recommended a list of workable and innovative design solutions for the city, PACE has focused much of their efforts to achieve those solutions.
